

Delete Alert(s)

1. Click the “Alert” icon on the toolbar
2. Select the alarm to be deleted and tick the checkbox to the left of the alarm name. If you want to delete all alerts, tick the checkbox at the very top of the list of alerts.
3. Click on “Delete” button.
4. A confirmation message will appear. Select “OK”

To delete all alerts, tick the checkbox located at the left side of the bar and then follow step 3

The screenshot shows the Alerts management interface. At the top, there is a toolbar with several icons. Below it, the 'Alerts' section has a search bar and a 'Page size' dropdown set to 20. On the right, there are 'Add New Alert' and 'Delete Selected' buttons. A table lists three alerts:

Alert Name	Alert Type	Alert Method	Created By	Devices/Group	Date Created	Actions
<input checked="" type="checkbox"/> cvc (Crossing)	Landmark	Email HTML	RecoverTTR		03/12/2014	
<input type="checkbox"/> 'Car wash' Cacho				1 device(s)		
<input type="checkbox"/> 'Car wash' Cacho (Entering)	Geofence	Email HTML		1 device(s)		

Below the table, a confirmation dialog box is displayed with the text: 'The page at defenderqa.skypatrol.com says: This is Device Based Geofence (DBG) Alert, would you like to remove geofence in device(s)?' with 'OK' and 'Cancel' buttons.
