

Delete Geofence(s)

1. Click on “Geofence” icon on the toolbar
2. Select the Geofence to be deleted
3. Click on “Delete” A confirmation message will appear. Select “OK”

The screenshot illustrates the steps to delete a geofence in the Defender application. At the top, a toolbar contains several icons; the 'Geofence' icon, which depicts a green location pin, is highlighted with a blue circle labeled '1'. Below the toolbar, the 'Geofences' section features a search bar, a 'Search' button, and a 'Page size' dropdown set to '20'. To the right of these controls are buttons for 'Upload Geofences', 'Add New Geofence', and 'Geofence Groups'. The main area displays a table of geofences with columns for ID, Name, Geofence groups, Shape, Created By, Created At, Type, and Actions. Three geofences are listed: ID 94348 (Name: cvvc, Shape: Circle, Created By: ttr, Created At: 03/12/2014 11:37:02, Type: DBG -), ID 94208 (Name: 1 Testing Alert Geo 00005, Shape: Circle, Created By: qarecover, Created At: 01/24/2014 09:07:22, Type: Software), and ID 94263 (Name: 1 Testing Geo Circular 000015, Shape: Circle, Created By: ttr, Created At: 02/14/2014 15:15:31, Type: Software). The 'Actions' column for each row contains icons for edit, delete, and share. A blue circle labeled '2' points to the delete icon (a red 'X') for the geofence with ID 94263. Below the table, a confirmation dialog box is shown. The dialog has a title bar that reads 'The page at defenderqa.skypatrol.co...' and contains the text 'Are you sure you want to delete the selected geofences?'. At the bottom of the dialog are 'OK' and 'Cancel' buttons. A blue circle labeled '3' points to the 'OK' button.

ID	Name	Geofence groups	Shape	Created By	Created At	Type	Actions
94348	cvvc		Circle	ttr	03/12/2014 11:37:02	DBG -	
94208	1 Testing Alert Geo 00005		Circle	qarecover	01/24/2014 09:07:22	Software	
94263	1 Testing Geo Circular 000015		Circle	ttr	02/14/2014 15:15:31	Software
