

## Edit Alert(s)

1. Click the “Alerts” icon on the toolbar
2. Select the alarm to be edited
3. Click on “edit” button
4. Type and/or select the new information
5. Review the information and click on “Save” or “Cancel”

The screenshot displays the DEFENDER Alerts management interface. At the top, a toolbar contains several icons, with the 'Alerts' icon (a speech bubble) highlighted by a blue circle with the number 1. Below the toolbar, the 'Alerts' section features a search bar, a 'Search' button, a 'Page size' dropdown set to 20, and buttons for 'Add New Alert' and 'Delete Selected'. A table lists the alerts, with the first row selected, indicated by a blue circle with the number 2. The table has columns for Alert Name, Alert Type, Alert Method, Created By, Device(s)/Group, Date Created, and Actions. The selected alert is 'cvc (Crossing)' with a 'Landmark' type and 'Email HTML' method. To the right of the table, a blue circle with the number 3 points to the 'Edit' button (pencil icon) in the Actions column. Below the table, the 'Edit Alert' form is shown. It includes a dropdown for 'Alert Type' (set to 'Engine Hours'), a radio button for 'Account Wide' (set to 'No'), and a button for 'Add Devices'. Below this, it shows '2 device(s) selected - view selected devices'. The 'Alert Name' field is set to '\_AnTestEngine on PRESTGG11'. The 'Every' field is set to '2' hours. The 'Scheduled For' dropdown is set to 'None', and the 'Except on' dropdown is also set to 'None'. The 'Send Alert to:' section includes fields for 'SMS' (7145532029) and 'Email' (a@a.com), both with red 'X' icons indicating errors. There is a '+ add another' link below these fields. At the bottom, there are 'Cancel' and 'Save' buttons, with a blue circle with the number 5 pointing to the 'Save' button.

Alert Name	Alert Type	Alert Method	Created By	Device(s)/Group	Date Created	Actions
cvc (Crossing)	Landmark	Email HTML	RecoverTTR		03/12/2014	
'Car wash' Cacho				1 device(s)		
'Car wash' Cacho (Entering)	Geofence	Email HTML		1 device(s)
