

Edit Alert(s)

1. Click the “Alerts” icon on the toolbar
2. Select the alarm to be edited
3. Click on “edit” button
4. Type and/or select the new information
5. Review the information and click on “Save” or “Cancel”

The screenshot displays the Alerts management interface. At the top, a toolbar contains several icons, with the 'Alerts' icon highlighted by a blue circle labeled '1'. Below the toolbar, the 'Alerts' section features a search bar, a 'Search' button, a 'Page size' dropdown set to 20, and buttons for 'Add New Alert' and 'Delete Selected'. A table lists the alerts, with the first row selected, indicated by a blue circle labeled '2'. The table has columns for Alert Name, Alert Type, Alert Method, Created By, Device(s)/Group, Date Created, and Actions. The selected alert is 'cvc (Crossing)' with Alert Type 'Landmark' and Alert Method 'Email HTML'. Below the table, the 'Edit Alert' form is shown. It includes fields for Alert Type (set to 'Engine Hours'), Account Wide (radio buttons for Yes and No, with No selected), Add Devices (2 device(s) selected), Alert Name (set to '_AnTestEngine on PRESTGG11'), Every (set to 2 Hours), Scheduled For (set to None), and Except on (set to None). The Send Alert to section includes SMS (7145532029) and Email (a@a.com) options, with a '+ add another' link. At the bottom, there are 'Cancel' and 'Save' buttons, with the 'Save' button highlighted by a blue circle labeled '5'.
